

## Pole Beans

### Ingredients

4 c SWP Pole Beans  
1 T butter  
1 t salt  
1/4 t pepper

### Directions

Add Pole Beans and water to a small pot and bring to a boil, stirring occasionally. Reduce heat, add butter, salt, and pepper, and cover until desired firmness.

Either drain or use a slotted spoon to serve.

**\*\*This is a simple and classic way to prepare pole beans. Another option would be to use bacon instead of the butter. Cook about three slices of bacon. Add drippings to the water you cook the beans in and, when serving, sprinkle the bacon crumbles into the beans.**
